

Customised DC Motorised Mixing Rollers Variable Speed For Food Automation Equipment

Our Product Introduction

for more products please visit us on drum-roller.com

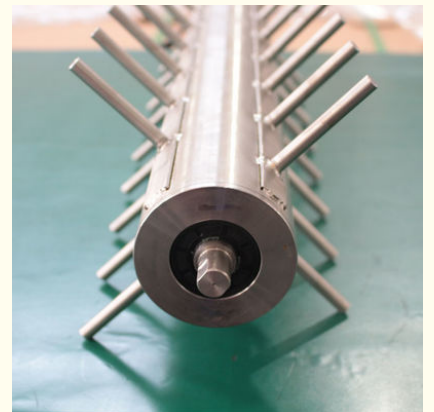

Basic Information

- Place of Origin: China Jiangsu
- Brand Name: Winroller
- Certification: CE, ROHS2.0, EMC, ISO9001
- Model Number: Winroller Customised Motorised Mixing Rollers
- Minimum Order Quantity: 1 stick
- Price: Contact Us
- Packaging Details: Wooden case
- Delivery Time: 7-15 word days
- Supply Ability: 1000000/year

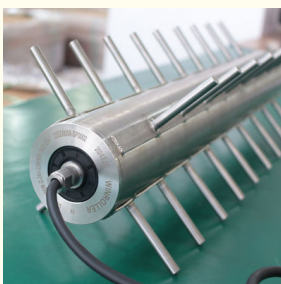

Product Specification

- Product Name: Customised DC Motorised Mixing Rollers
- Cylinder Material: Food-Grade 304 Stainless Steel
- Voltage: DC24V
- Diameter: 76mm
- Length: Customised
- Protection Class: IP65
- Power: 300W
- Function: Food Automation Equipment
- Rated Current: 11A
- Rated Torque: 24.58N·M
- Rated Speed: 96RP
- Highlight: Customised Motorized Conveyor Roller , Motorized Conveyor Roller Variable Speed, IP65 Motorized Drive Roller

Product Description

Features Overview of Customised DC Motorised Mixing Rollers Variable Speed For Food Automation Equipment

The motorized mixing roller is constructed from 304 stainless steel and supports real-time speed adjustment along with forward and reverse functions. It is suitable for mixing various types of slurry, making it ideal for use in the food industry for blending raw materials, the chemical industry for combining chemical compounds, the feed industry for processing feed materials, and the pharmaceutical industry for mixing powders and liquid medicines.

Function of Customised DC Motorised Mixing Rollers Variable Speed For Food Automation Equipment

Built-in 300W powerful motor
P65 level protection design
Food-grade stainless steel cylinder material, protection level reaches IP65.
Advanced controller, support real-time speed adjustment and forward/reverse function.
Fixing of stirring column and roller surface
Strong sealing between the end face of the cover and the end of the lead wire.

Application of Customised DC Motorised Mixing Rollers Variable Speed For Food Automation Equipment

Food industry for mixing various food ingredients
Chemical industry for mixing all kinds of chemical raw materials
Pharmaceutical industry for mixing powder, liquid, etc.
Feed industry for mixing all kinds of feed materials

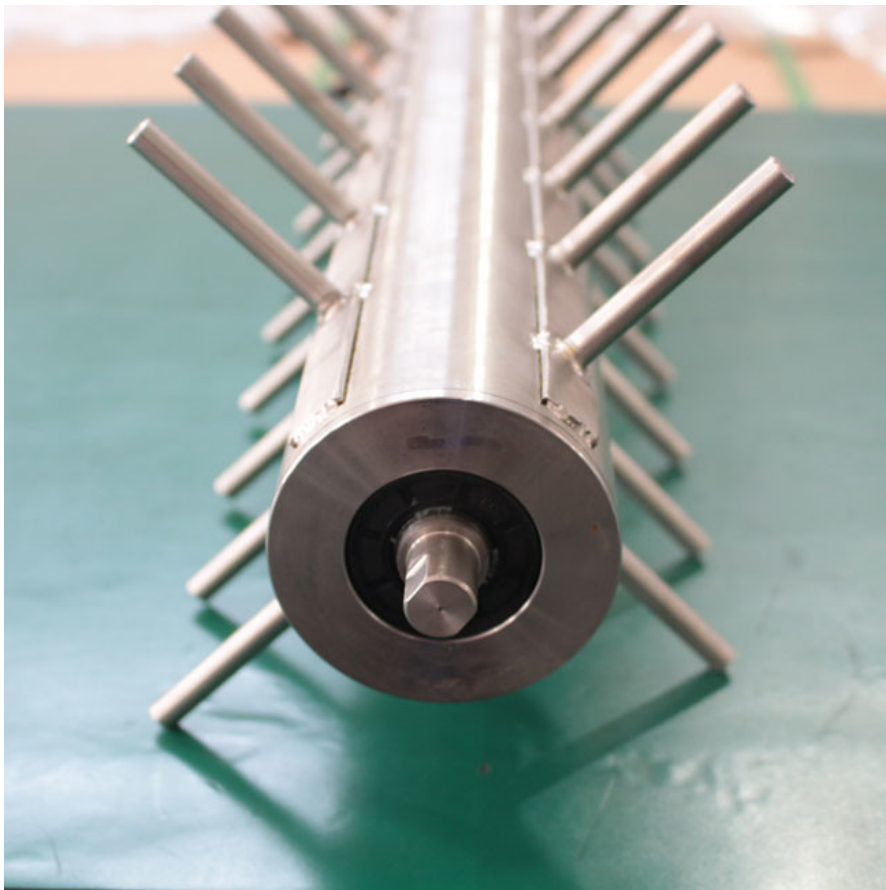

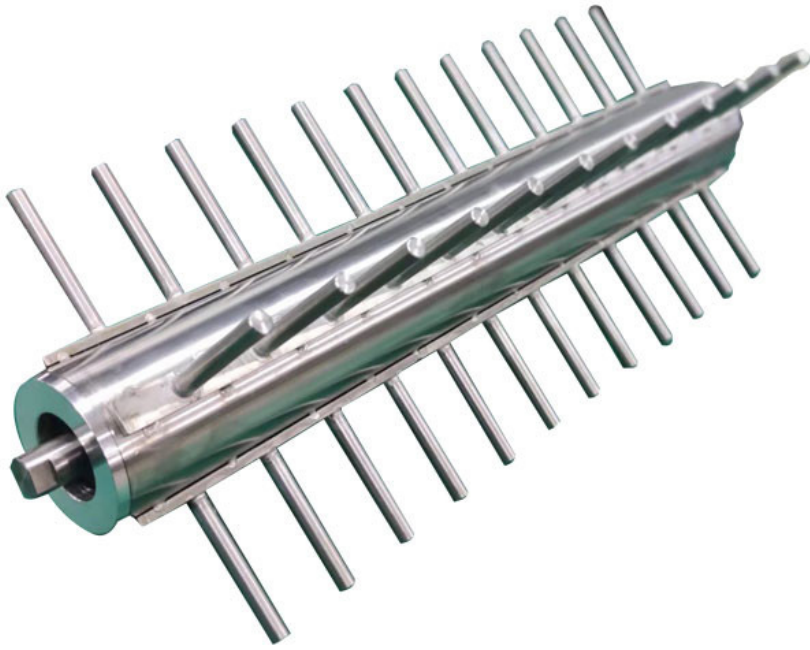

Technical Parameters of Customised DC Motorised Mixing Rollers Variable Speed For Food Automation Equipment

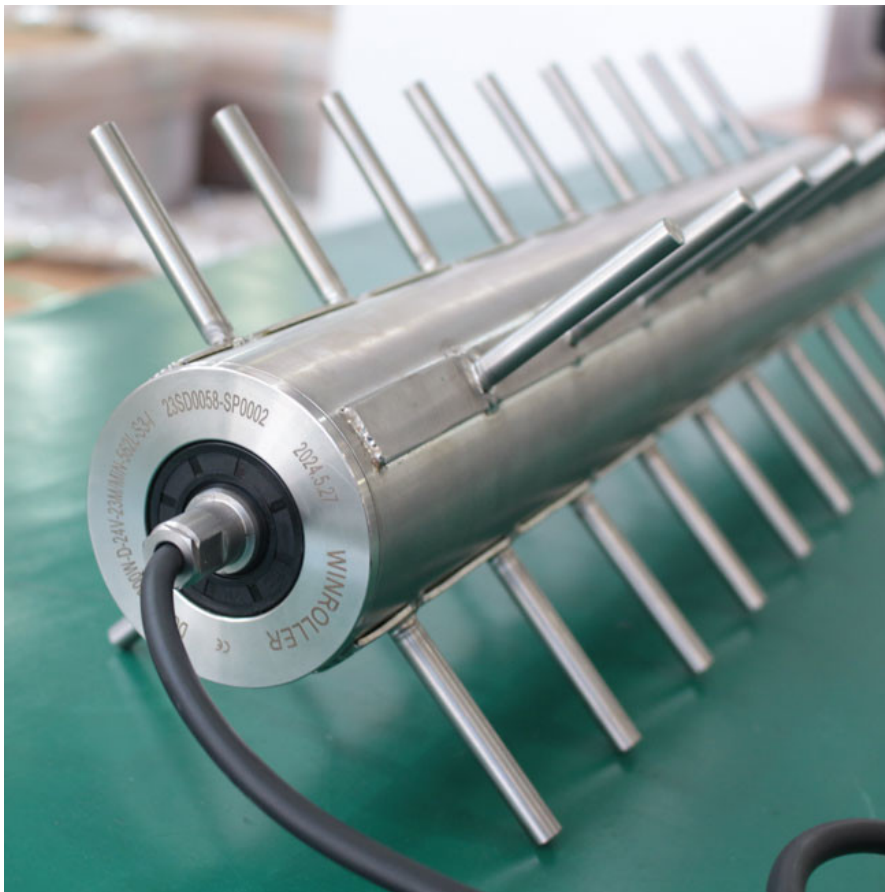

Customised DC Motorised Mixing Rollers Variable Speed For Food Automation Equipment

Application	Motorised Mixing Rollers for Food ingredient mixing, chemical ingredient mixing, feed ingredient mixing, Powder and liquid mixing	Cylinder Material	Food-Grade 304 Stainless Steel
Power	300w	Diameter	76mm
Voltage	DC24V	Length	Customised
Protection Class	IP65	Function	Food automation equipment
Voltage	DC24V	Length	Customised
Rated Current	11A	Rated Torque	24.58N·M
Rated Speed	96RP	Protection Class	IP65

Custom Services: Breaking away from the limitations of traditional roller designs, we offer a wide range of customized options, including conical, rubber-coated, brush, multi-section, spiral, and other specialized forms—up to dozens of configurations. With independent molding capabilities, we achieve high precision and density, ensuring products that are nearly 100% aligned with customer drawings and samples.
